CONTENTS

No. 1, JANUARY, 1939

Comparative Resistance of Recently Isolated and Older Laboratory Strains of *E. typhosa* to the Action of Chloramine. Paul Kabler, G. O. Pierce and G. S. Michaelsen. 1
Nitrogen Metabolism of Certain Coliform Bacteria. Philip L. Carpenter 11
Certain Electrophoretic Relationships of Colon Bacilli. George H. Chapman and Clarence W. Lieb. 21
The Specificity of the Agglutinin Reaction for *Shigella dysenteriae*. II. Agglutinin Absorption Relationships between *Shigella dysenteriae* and *Escherichia coli*. Thomas T. Mackie, With the Assistance of Mildred Schweiger. 27
The Implantation of Oral and Intestinal Strains of *L. acidophilus* in the Albino Rat. Michael J. Pelczar, Jr., and Luther A. Black. 51
A Study of the Hemorrhagic Septicemia Pasteurellae. Carlos T. Rosenbusch and I. A. Merchant. 69
Chromogenic Strains of *Escherichia*. Ralph P. Tittsler. 91
Studies of Freshwater Bacteria. V. The Distribution of *Siderocapsa treubii* in Some Lakes and Streams. Yvette Hardman and Arthur T. Henrici. . 97
Proceedings of Local Branches of the Society of American Bacteriologists, Eastern Pennsylvania and Washington Branches. 107

No. 2, FEBRUARY, 1939

Precursors to the Formation of Creatinine by Bacteria. C. H. Fish and T. D. Beckwith. 111
A Comparative Study of the Use of Varying Concentrations of Agar in the Test Medium Used to Detect Contaminants in Biologic Products. Carolyn R. Falk, Helen Bieniasz Bucca, and Margaret P. Simmons. 121
Double-Zone Beta-Hemolytic Streptococci. Their Cultural Characteristics, Serological Grouping, Occurrence and Pathogenic Significance. J. Howard Brown. 133
Physiological Youth as an Important Factor in Adaptive Enzyme Formation. C. P. Hegarty. 145
A Method for Producing Increased Carbon Dioxide Tension in Individual Culture Tubes and Flasks. H. J. Shaughnessy. 153
Growth Factor Requirements of the Root Nodule Bacteria. P. M. West and P. W. Wilson. 161
The Determination of Histamine in Bacterial Cultures. Arnold H. Eggerth, Ralph J. Littwin, and Joyce V. Deutsch. 187
The Production of Histamine in Bacterial Cultures. Arnold H. Eggerth. 205
Proceedings of Local Branches of the Society of American Bacteriologists, Central New York State, Eastern New York, Ohio, Central Pennsylvania and Eastern Missouri Branches. 223

No. 3, March, 1939

The Relation of Aerobiosis to the Fermentation of Mannitol by Staphylococci. Eugenia Valentine Colwell 245
A Skunk-like Odor of Bacterial Origin in Butter. T. J. Claydon and B. W. Hammer 251
Growth Factors for Bacteria. VII. Nutrient Requirements of Certain Butyl Alcohol-producing Bacteria. L. E. McDaniel, D. W. Woolley and W. H. Peterson 259
Effects of Sulfanilamide on *Brucella melitensis*, var. *melitensis*, *abortus*, and *suis*. E. E. Menefee, Jr., and Mary A. Poston 269
Cultural Requirements for the Production of Black Pigments by Bacilli. Francis E. Clark and Nathan R. Smith 277
Factors Limiting Bacterial Growth. IV. The Age of the Parent Culture and the Rate of Growth of Transplants of *Escherichia coli*. A. D. Hershey 285
A Study of the Lipids of Certain Enteric Bacilli. Clara H. Williams, Walter R. Bloor, and Leslie A. Sandholzer 301
The Cultural and Antigenic Properties of *Shigella sonnei*. John H. Glynn and D. Hugh Starkey 315
The Absorption of Bacteriophage by Sensitized Enterococci. Elberton J. Tiffany and Morris L. Rakieten 333
Proceedings of Local Branches of the Society of American Bacteriologists, Connecticut Valley and Washington Branches 351

No. 4, April, 1939

The Lactase Activity of *Escherichia coli-mutabile*. Charles J. Deere, Anna Dean Dulaney and I. D. Michelson 355
A Note on the Monophasic Non-specific Salmonella Types. D. W. Bruner and P. R. Edwards 365
Productivity of Media Containing Milk for Recently Isolated Strains of the Coliform Group. M. T. Bartram and L. A. Black 371
Chemical Factors Influencing the Growth of Tubercle Bacilli. I. Metal Catalysts. Ben C. Sher and Henry C. Sweany 377
Immunological Relationships of Polysaccharides of Mucoid Organisms of the Typhoid-Salmonella Group. H. R. Morgan and T. D. Beckwith 389
Meningitis Caused by Atypical Gram-negative Cocci. Hobart A. Reimann and Rudolph W. Koucky 401
An Improved Method for Testing Antiseptic Dusting Powders. John H. Brewer 411
The Pattern of Dissociation in *Hemophilus influenzae*. Caroline A. Chandler, Leroy D. Fothergill and John H. Dingle 415
The Nutritional Requirements of *Clostridium parabotulinum, A*. S. S. Elberg and K. F. Meyer 429
The Lethal Action of Short Ultraviolet Rays on Several Common Pathogenic Bacteria. D. G. Sharp 447
Precipitins for the Tuberculin Proteins of Acid-fast Bacteria. Janet McCarter, Elizabeth M. Kanne and E. G. Hastings 461
Proceedings of Local Branches of the Society of American Bacteriologists, Washington Branch 470

No. 5, May, 1939

On the "Activation" of the Lactase of *Escherichia coli-mutabile*. Charles J. Deere 473
The Introduction of Agar-agar into Bacteriology. Arthur Parker Hitchens and Morris C. Leikind 485
Nicotinic Acid and Thiamin Hydrochloride as Growth-promoting Factors for *Brucella*. Grace P. Kerby 495
The Oxidation of Ascorbic Acid as Influenced by Intestinal Bacteria. William B. Esselen, Jr. and James E. Fuller 501
On the Relation between Assimilation and Respiration in Suspensions and in Cultures of *Escherichia coli*. C. E. Clifton and W. A. Logan 523
The Extracellular Proteolytic System of *Clostridium parabotulinum*. S. S. Elberg and K. F. Meyer 541
Metabolic Studies of a Non-hemolytic Streptococcus. J. W. King, J. C. Garey and M. A. Farrell 567
Proceedings of Local Branches of the Society of American Bacteriologists, Maryland Branch 581

No. 6, June, 1939

Evaluation of Germicides by a Manometric Method. J. Bronfenbrenner, A. D. Hershey and J. Doubly 583
The Specific Effect of Zinc and Other Heavy Metals on the Growth and Nutrition of *Rhizopus*. Jackson W. Foster and Selman A. Waksman 599
Effect of Aldehydes and Fatty Acids as Added Hydrogen Acceptors on the Fermentation of Glucose by *Aerobacter indologenes*. M. N. Mickelson and C. H. Werkman 619
The Preparation of Perseulose by Oxidation of Perseitol with *Acetobacter suboxydans*. Evelyn B. Tilden 629
The Evaluation of a Group of Germicides by the Tissue Culture Technique. A. J. Salle, W. A. McOmie and I. L. Shechmeister 639
A New Bacterial Species Isolated from the Chuckawalla (*Sauromalus varius*). L. F. Conti and J. H. Crowley 647
Proceedings of Local Branches of the Society of American Bacteriologists, Eastern Missouri Branch 655
